

DRAIN CLEANER & SEPTIC TREATMENT

DESCRIPTION:

Natural bacterial enzyme formula breaks down organic waste build-up. Keeps pipe line clear. Safe for all plumbing and septic systems. Safe, naturally occurring bacteria are present in high numbers to handle difficult organic problems. The bacteria eliminates malodours, and quickly goes to work to break down starches, carbohydrates, cellulose, fats, grease and oils that build up. Is safe, biodegradable, and a natural solution for a broad spectrum of organic waste and odour problems. Safe for all plumbing, and optimizes the natural bacteria action required in septic systems.

DIRECTIONS:

Drains

For clogged drains: Use 8 oz. (approx. 250ml) per day for 3 days.
For maintenance: Use 1 tablespoon twice weekly

Septic Systems

Use 16 oz (approx. 500 ml) per 500 gal. capacity for the initial treatment. Thereafter, use 8 oz (approx. 250 ml) per week. Pour directly into the toilet and flush.

CAUTIONS:

- Keep out of reach of children.
- Store in well-ventillated and dry place away from direct sunlight.
- Do not mix with other chemicals.

Colour: Opaque
Fragrance: Fresh scent
pH: 6.0-7.0
Dilution: RTU
